

V.008
November
Week Four

This palette is wonderful for Thanksgiving or autumn celebrations of any kind! The rich but saturated hues will add some festive fun to your table, your crafting or your wardrobe! Adding in the hot magenta makes this a more modern palette and offers an updated feel. The warm, dark turquoise is a nice counter balance to the magenta and makes a good substitute for black. Next time you add type or handwriting to a project, consider using a dark valued hue like this one instead of black – it will add sophistication and elegance.
